

# NANCY HULSEY, COLLEGE ADMISSIONS CONSULTING

I began **Best 4 Years** to provide individualized attention to students and their families through the complex, competitive, and evolving world of college admissions.

**Throughout high school and the application process, I advise students on:**

- Class selection
- Extracurricular activities
- Leadership opportunities
- Summer programs
- Standardized testing
- Resumes
- Recommendations
- Admission cycles
- Interview prep
- Honors programs
- Navigating test-score optional
- Building a well-rounded college list
- Writing effective essays
- Completing applications

While I am dedicated to guiding my clients through every step of the process, my favorite part is what many students and families dread the most...the essays! In a sea of qualified candidates, essays make a difference, and I love working with students to craft essays that are unique, memorable, and reflective of who they are today, and who they will be on campus. Then I help students use the collective parts of the application to round out their story and illustrate why they'll be a valuable member of the next freshman class.

**I have helped students secure admission at over 70 different institutions including:**

Stanford	Tulane	George Washington
Cornell	University of Washington	American
Northwestern	Boston College	Villanova
University of Chicago	West Point	St. Andrews (Scotland)
WashU	Harvey Mudd	University of Michigan
Georgia Tech	Kenyon	University of Wisconsin
USC	Lehigh	Ohio State
Bowdoin	Bucknell	Plus many other state and
Colgate	University of Miami (FL)	private college
Northeastern	Fordham	

**Aspiring College Athletes**

Passionate about your sport? Not ready for it to be done? Dream about playing at the next level? As a four-year member of the Colgate D1 Women's Tennis Team, I get it. Whether it's DI, DII, or DIII, I help aspiring college athletes at every stage of the process from creating resumes, to finding the right fit schools, to helping them with how and when to communicate with coaches.
